

Welcome to Launchpad!

Launchpad, an engaging, in-platform assessment, gives educators an accurate baseline of student understanding and places students in the DreamBox Math curriculum. With Launchpad, educators know each student’s math strengths in less than one hour.

By enabling Launchpad, your students will start the school year with this short, adaptive assessment that will appropriately place them in the DreamBox adaptive curriculum. Launchpad will also help you see the most relevant data in the new Growth Report.

This document gives you everything you need to get started with Launchpad. If you have any trouble, please reach out to your DreamBox representative, or [contact support](#).
