

DreamBox Math Overview

What is DreamBox Math?

DreamBox Math is a digital math program for grades K – 8 that combines a fun and engaging math learning environment with a rigorous, standards-based curriculum. DreamBox lessons are interactive experiences that promote active learning and independent critical thinking and respond to each student’s strategies and decisions in the moment. DreamBox individually tailors the instructional experience for each student based on the strategies they use when working through lessons. Because DreamBox dynamically adapts lessons and learning paths based on the needs of each learner, students always have just the right level of support when and where they need it.

Home usage advice and best practices

- Plan at least 20 – 30 minutes for each session. Students should complete at least 5 lessons per week.
- Since DreamBox Math is personalized to each learner based on their strategies and understanding, it’s important to let your child work through lessons within their own account.
- Use the Activity Feed in your Family Insight Dashboard to monitor you child’s progress. If they are stuck on a lesson, you can view it by hitting the Play Lesson button and help guide them with a facilitated discussion. Try to avoid helping them directly in the student environment.
- Turn on closed captioning with lessons if it’s helpful.

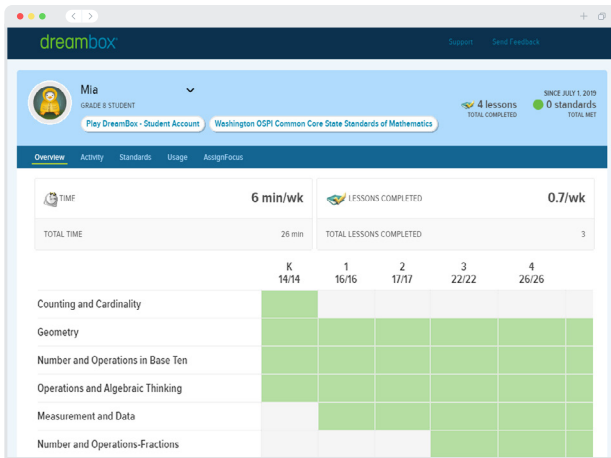

Healthy habits for home learning success in DreamBox Math

- ✓ **Try every problem:** Persist even when it is hard.
- ✓ **Finish every lesson:** Persevere instead of choosing another lesson.
- ✓ **Use in-lesson support:** The feedback, hints and help are created to assist you.
- ✓ **Use headphones or speakers with volume on:** Listen to the directions, assistance and feedback
- ✓ **Work independently:** Don’t let others do your work for you.
- ✓ **Complete 5 or more lessons per week:** Students who complete 5 or more lessons (or 1 hour) per week experience the most learning growth

Family Insight Dashboard

Your Family Insight Dashboard will provide you with insights into your child's learning as well as highlight important learning milestones. This will help keep you informed on your child's skills and foster a partnership to positively influence your child's learning outcome.

Access is easy. Ask your child's teacher for an invitation with instructions to log in for the first time.

Monday – Friday.

What other parents and guardians are saying

“As a parent, seeing my child understand concepts beyond his grade level that have not been taught in the classroom, has been incredible. I enjoy seeing him thrive and being pushed to HIS personal edge. It has also been exciting to see him transfer the learning within DreamBox to his in-class learning. I have enjoyed watching him grow in this program and into a confident mathematician.”

– Parent

“DreamBox is a great platform to get students excited to learn math as it blends technology with games and activities.”

– Guardian

“DreamBox is awesome! My kiddo loves it, and looks forward to playing on it. I love that they are learning so much, and that they think it's a game!”

– Parent
