

K-2 LITERACY

DreamBox Reading Park

SCOPE AND SEQUENCE

Revised June 27, 2023

This Scope and Sequence presents all the Quests and Lessons currently available in Reading Park, the PreK-2 foundational reading program that combines a research-based curriculum with the power of DreamBox Learning’s Intelligent Adaptive engine.

Reading Park presents the critical foundational reading instruction and practice that younger learners need for grade-level reading achievement.

The program takes full advantage of DreamBox’s powerful adaptivity, which means that students will experience a highly-individualized learning path. Due to this personalization, some students may not experience all of the lessons, and the order in which lessons are presented to students may differ from the order shown.

Please note that Reading Park will add additional quests and lessons on a regular basis.
