

Mathematicians in my World

Grade levels: K-2

Research someone in your community that uses mathematics in their job.

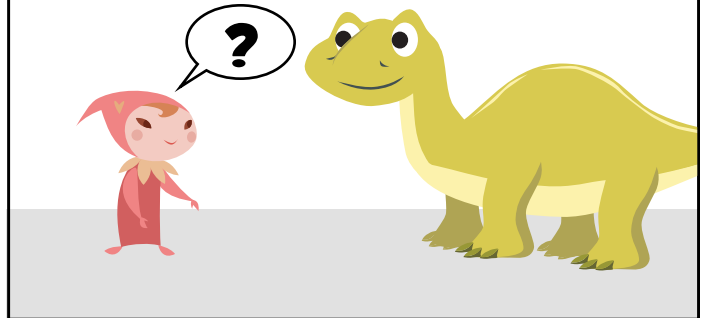

- Interview a community member.
- Complete the writing prompts.
- Draw a picture to introduce the class to your Mathematician.

1

Interview someone that uses mathematics in their job.

Here are some examples:

Architect	Video Game Designer	Animator
Nurse	Geologist	Climatologist
Baker	Pilot	Psychometrician
Carpenter	Civil Engineer	Urban Planner
Mechanic	Air Traffic Controller	Software Engineer

2

Choose 2 of the following questions to answer in your math journal.

What is your job?
How do you use mathematics in your job?
Why do you like your job?

3

Draw a picture of your Mathematician at work.

4

Present your Mathematician to your teacher and classmates.

Math is Everywhere and in Everyone!

Ask people you know how they use math at work, at home, and on the go.

Equity in the classroom

Recognizing the individuality and uniqueness of each student.
